SMART

Die charakteristische Eigenschaft von Smart, ist eine Frontplatte mit Strukturfunktion unter der Arbeitsplatte, welche gleichzeitig den Vorteil des Sichtschutzes bietet.

Un elemento particular de Smart es la presencia del panel frontal inferior con función estructural y que al mismo tiempo mantiene las ventajas en términos de campo visual.

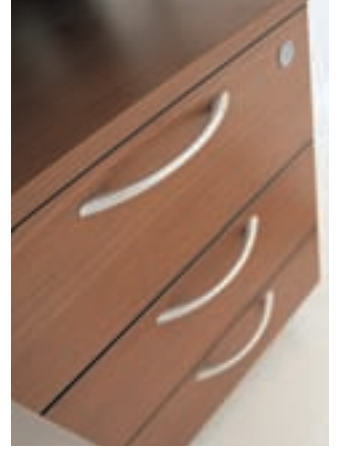

The Smart collection distinguishes itself by the presence of the modesty frontal panel that plays a structural and visual function.

Son voile de fond structurel lui confère discrétion et simplicité.

Smart "Metal" verwendet ein multiplexes Gestell mit Kabelkanal und Frontpanele.

La variante Smart "metal" en cambio, utiliza como estructura portadora una viga de metal canalizable.

The Smart "metal" version uses a metal beam (ready for wire management) as its supporting structure.

La variante Smart "métal" utilise une poutre métallique structurelle & canalisable.
